# Specialty Units

## Internet Crimes Against Children

The Waukesha Police Department Internet Crimes Against Children (ICAC) Unit is comprised of four Detectives and one Sergeant. Two of the Detectives are trained in Computer Forensics (CFU) and Peer to Peer Networking. The other two Detectives have received training in Undercover Chatting. All four Detectives have other job responsibilities. This specialty unit is led by Sergeant Jerry Habanek.

There has been a decrease in arrests in this area as many cases in the schools are handled by School Resource Officers and do not reach the Computer Forensics or ICAC Units. Also, peer to peer activity has lessened in response to an increase in Law Enforcement monitoring. For the Computer Forensics Unit, the number of devices examined has roughly stayed the same. It is on track to increase in the upcoming year as digital evidence is more commonplace, and our abilities are increasing.

The first graph below shows the amount of court actions such as arrests, warrants, and subpoenas. The second graph below shows the number of forensic exams on digital devices analyzed and preserved as evidence to assist in various investigations.

## **Narcotics and Vice Unit**

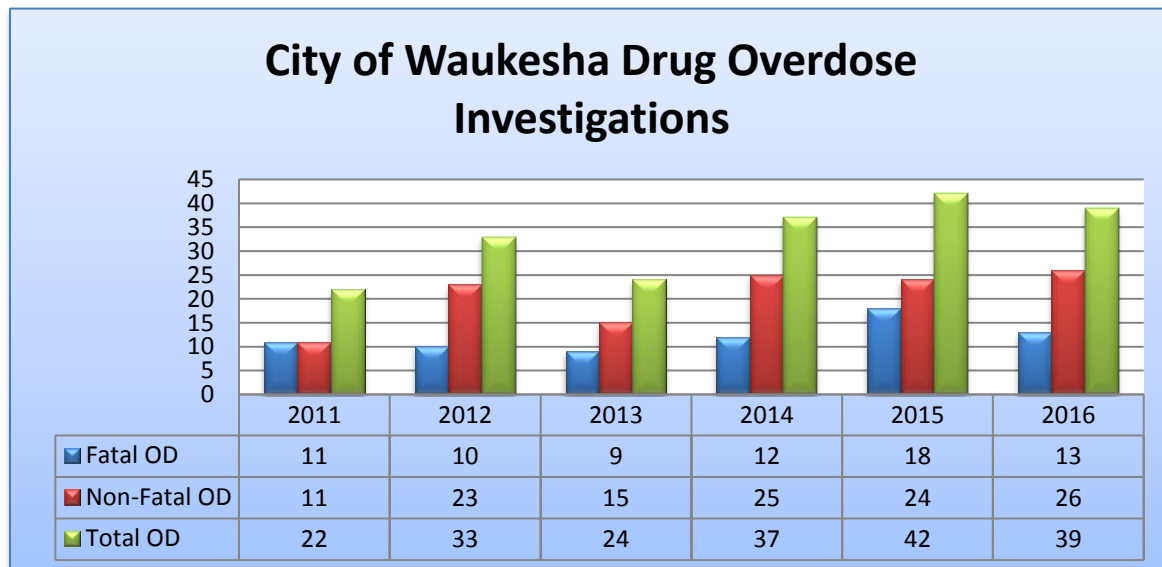

During 2016, Narcotics and Vice Unit Detectives generated 50 drug related defendants, while arresting two defendants for Escort Ordinance violations. These investigations led us to 12 drug related search warrants, and three drug related buy-busts. In creating the 50 drug related defendants, NAVU Detectives performed 97 drug purchases. See the below chart for the breakdown of drug deals with the corresponding seizure amounts for 2016:

### **2016 Drug Delivery Investigations**

<b>Drug</b>	<b>Total Drug Buys</b>	<b>Total Weight</b>
Marijuana	52	3508.1g
Marijuana Wax	8	238.9g
Marijuana Edibles	2	366.7g

### **2016 Overdose Investigations**

The Waukesha Police Department was involved in 39 overdose investigations, in which 13 were fatal. The 13 fatal overdoses in 2016 was a slight dip from 2015. Below is a comparison chart of the City of Waukesha's overdose investigations from 2011 through 2016. It is important to remember that this is only representative of reported cases. Narcan has become widely distributed to opiate users and has likely caused under reporting of actual overdose cases:

## Waukesha County Drug Overdose Cases

Below are the Waukesha County Medical Examiner Statistics on Drug Overdoses:

Year	Number of Drug Related Deaths	Gender (M, F)	Age Range	Average Age

2012	59	39M 20F	20-82	41
2013	39	23M 16F	19-87	44
2014	50	33M 17F	12-64	37
2015	49	26M 23F	20-94	43

\*statistics are always a year behind, as the medical examiner awaits toxicology results before making a final determination on the case.

### Conclusion

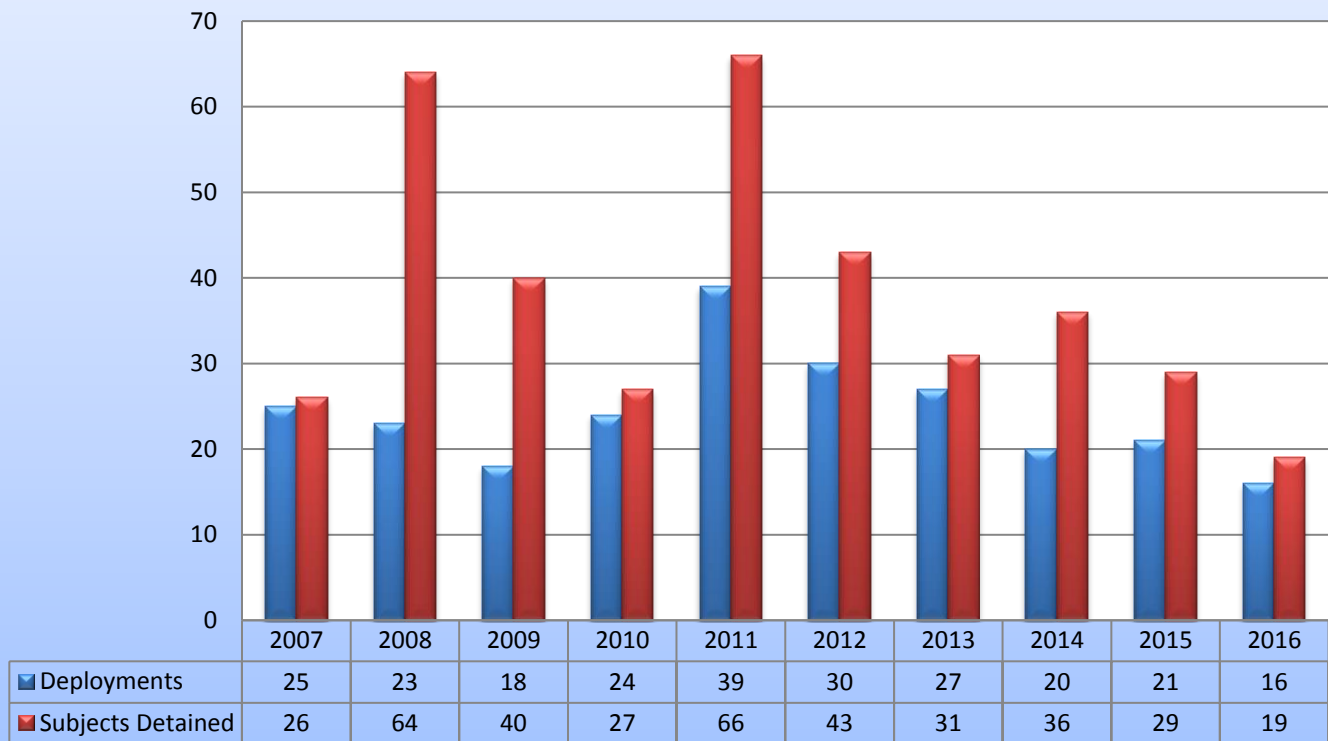

We continue to see opiates as our main threat to our local citizens. Therefore, the goal for the Narcotics and Vice Unit for 2017 will continue being driven toward increasing the amount of attention and caseload on heroin, fentanyl, and other opiates to help bring about an adverse effect on the overdose problem and save lives. Furthermore, by attacking the opiate problem, we hope to decrease the number of property related crimes in our city.

### Tactical Unit

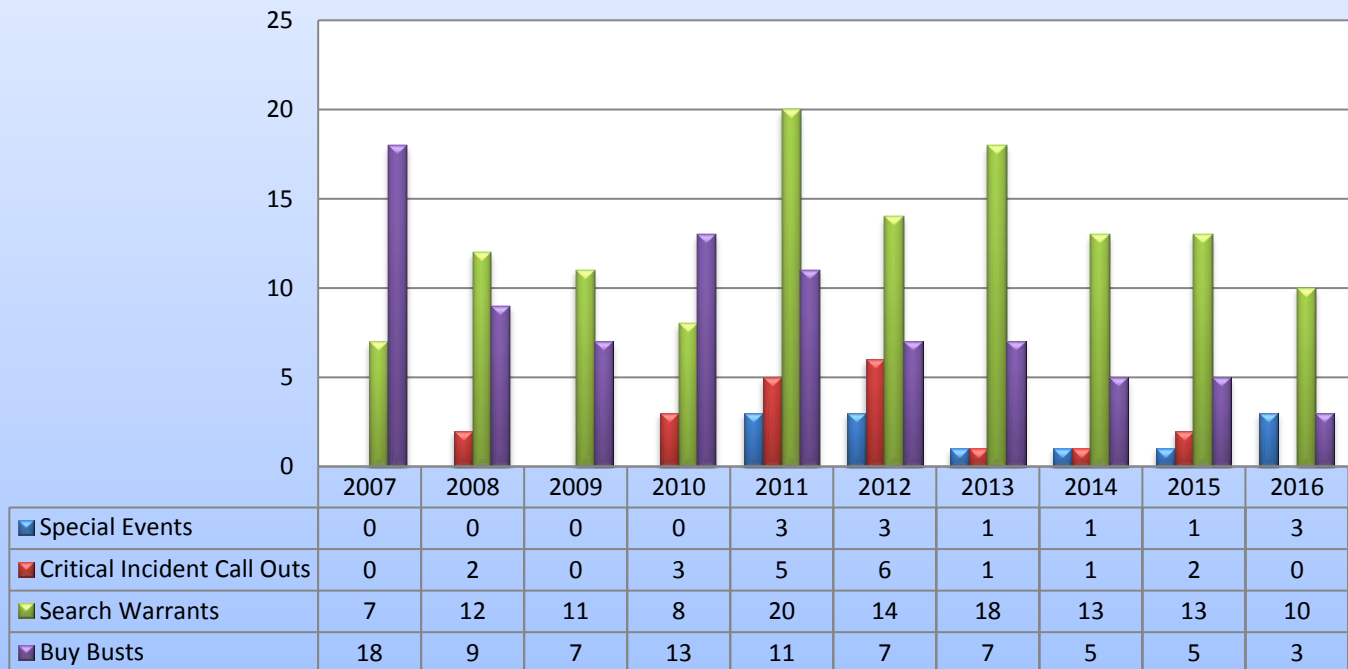

The mission of the Waukesha Police Department Tactical Unit is to serve the community by preserving life in high-risk situations through the use of specialized training, equipment, and tactics in a professional manner that minimizes the risks to officers, citizens, and suspects. This unit is led by Captain Ron Oremus.

These sessions include providing drug education to local schools, presenting to the Citizen's Police Academy and Career Explorations, and training department personnel in the area of drug recognition and impaired driving enforcement. The following table breaks down the 2016 education and training sessions:

<b>Type of Education/Training</b>	<b>Frequency</b>
School Presentations	22 sessions
Citizen Presentations	2 sessions

## Conclusion

Impaired driving continues to be a prevalent problem in the Waukesha Community. The Waukesha Police Department remains very proactive in the apprehension of impaired drivers. As more Waukesha Police Officers receive advanced training in drug impairment through courses such as Advanced Roadside Impaired Driving Enforcement (ARIDE), the ability to detect such violations should increase. Therefore, it is our goal for 2017 to remain proactive in OWI enforcement and strive to make the highways a safer place.
